

Dear Parents and NVJDC Visitors:

We continue to monitor all that is taking place locally, statewide, and nationally as it relates to COVID-19. With the increased risks associated with the possibility of community spread, we have decided to suspend all face-to-face visits with residents until further notice. Residents will be able to make phone calls to their families during this time. Our goal is to protect the health and well-being of the children within the facility and the staff that care for them. We recognize that this is a difficult time for everyone, and we put care and concern forefront in making this decision.

We will maintain communications with our families through phone calls, dissemination of letters available on our website and at the facility. As always, we may be reached at (703)751-3700

We will continue to keep you updated as things change. We appreciate your understanding.

Johnitha R. McNair

Executive Director
